# BRING it HOME

Although 30 states and the District of Columbia and Puerto Rico have legalized some form of cannabis, landlords can prevent tenants from the use, possession, or growing of cannabis at their homes. This needs to change.

You are invited to assist, organize, and attend a Bring It Home demonstration on Monday, April 2. We suggest creating a Facebook Event for the demonstration and sharing it with us so we can help publicize it.

**Adults who rent their homes can be evicted for the possession, use, and cultivation of cannabis if their lease prohibits cannabis.**
