BRING it HOME

Students in states with legalized cannabis can still be kicked out of their dorms for possession, use, and cultivation of cannabis.

Although 30 states, the District of Columbia and Puerto Rico have legalized some form of cannabis, as long as the federal government classifies it as Schedule One substance, students cannot use, possess, or grow cannabis at any and could be ruin their educational prospects if they Bring It Home. This needs to change.

You are invited to assist, organize, and attend a Bring It Home demonstration on Wednesday, April 4. We suggest creating a Facebook Event for the demonstration and sharing it with us so we can help publicize it.
