BRING it HOME

Although 30 states and the District of Columbia and Puerto Rico have legalized some form of cannabis, as long as the federal government classifies cannabis as a Schedule One substance, Veterans cannot use, possess, or grow cannabis at any VA Building. This needs to change.

You are invited to assist, organize, and attend a Bring It Home demonstration on Tuesday, April 3. We suggest creating a Facebook Event for the demonstration and sharing it with us so we can help publicize it.

Veterans who valiantly served in the United States military are denied the right to obtain a recommendation for cannabis from their VA doctor.
